

War & Terrorism

Delivering shared success

As a mutual company, we focus not on shareholders and stock markets, but on our policyholders and partners. We take time to get to know your business and what you need from your insurance solution.

Our underwriting involves a thorough analysis of your risks, backed by a deep understanding of your industry, while our integrated underwriting, claims and risk management offers you a creative risk-transfer solution.

Solutions for your most complex risks

Terrorism and Political Violence is an emerging risk for modern day businesses and in the 2023 World Economic Forum Insight report, more than four in five respondents anticipated consistent volatility over the next two years. Our specialist global team of Underwriters focus on tailoring products to suit each client depending on their risk profile, location and individual requirements.

We have a broad client base ranging from heavy industries, technology companies, energy providers, retailers and hospitality providers and provide our clients with the confidence to operate in an increasingly unpredictable world.

Our team underwrites business via our Lloyd's syndicate and company platform. We use our global distribution network of Liberty offices and work with domestic and international broker partners.

With you for the long term

Being a mutual insurance company means we're consistent and here for the long term. Our experienced teams are resourceful, responsive and empowered to make decisions quickly. You'll benefit from our technical underwriting capabilities, the strength of our relationships with our broker partners, and our unique approach to claims service.

Because what's good for you, is good for us.

Continuity in a changing world

Some clients have been with us for over 20 years. Why do they stay so long? Because we have a culture of flexibility and transparency. Quite simply: we do the right thing.

Your business doesn't stand still and neither do we. We are constantly evolving our products and services, investing in people and resources, and building our global distribution network – bringing you continuity and reassurance in a changing world.

Claims confidence

Aligned with the Liberty Claims Charter, our London-based War & Terrorism team has high levels of local settlement authority, supported by a global network of technical capability – designed to give you direct access to decision-makers and global experience even in challenging environments.

Recognised as a market leader, our strong technical expertise from the wider insurance industry, and the strength of our broker partnerships, help to ensure we are always focused on handling your claim as quickly as possible.

Claims+

In addition to our claims charter and promise, where appropriate, we offer extra value-add services at pre-placement, post-placement, and post-loss stages. Designed to help ensure your claims experience – even without a claim – is as good as we can make it.

A sustainable future

Our purpose is to help people embrace today and confidently pursue tomorrow. To fulfil this purpose, we are committed to sustainability and careful consideration of environmental, social and governance (ESG) issues.

Insurance can be a force for good and we have a role in supporting the transition towards a low-carbon future. We are supporting Climate Transition Pathways, currently working to provide a number of benefits to companies with accredited transition plans, in addition to continued access to insurance capacity. For instance, we are exploring how to meet the challenge of the transition with longer-term and more expansive solutions.

Unlocking opportunities

With over a century of insurance experience, we've learned a thing or two about risk. We're dedicated to developing products and solutions for our clients, whether it's a variety of specialist coverages, a customised wording, or guidance on emerging exposures.

Talk to us about the trends we're seeing in your industry, and the products we offer to help protect your business:

- Property
- Casualty
- Construction
- Oil and Gas
- Marine
